Professional Summery

Backend-focused software engineer with 4+ years of experience building, scaling, and refactoring production-grade systems using PHP Laravel and modern JavaScript. Proven in performance optimization, legacy code restructuring, and designing scalable architectures for Accounting, E-Learning, E-commerce, and high-traffic applications. Strong ownership mindset with experience in technical leadership, mentoring, and building reliable, maintainable systems while improving frameworks, tools, and packages.

Core Technical Expertise

- **Backend:** PHP, Laravel, Node.js, RESTful APIs
- **Frontend:** React.js, Next.js, JavaScript (ES6+), Livewire, Tailwind CSS, HTML5/CSS3
- **Database:** MySQL, MongoDB, Redis, Firebase
- **Architecture & DevOps:** AWS(s3, Lambda), Docker, CI/CD, Nginx, Apache, Load Balancing, Modular monoliths & microservices
- **Development Practices:** Agile/Scrum, TDD, Clean Architecture, SOLID Principles, Repository Pattern, Factory Pattern, PHPUnit, Testing, API Testing

Professional Experience

- **Senior Software Engineer** / *ADDIE Soft Limited* / 2025-Running
Worked Education Management, Task Manager(Click Up & Trello type), AI Social Manager by Laravel, Next.js, MySQL, Redis, Restfull Api, and RBAC
- **Software Engineer** / *Software Giant Limited* / 2024 – 2025
Worked on Accounting, Advisor Manager (CRM), and Digital Salon Manager systems using Laravel, Inertia.js, MySQL, React, and Livewire, Security System and handling high-traffic data efficiently.
- **Junior Software Engineer** / *Innovation Information System Limited* / 2022 – 2024
Worked E-learning Management, Pos-Inventory, CRM using Laravel, PHP, MySQL, Payment Gateway Integration, JavaScript, Security System and RBAC.

Featured Projects

- **Coaching & Education Management**
Developed a Coaching Management System with management and accounting features, ZKTeco device integration, real-time meal collection, WebSocket support, and modular reporting using Laravel and Blade.
- **RCSL Accounting & Budgeting System**
Developed full accounting features including budgeting, vouchers, billing, transactions, economic code-based components and categories, along with real-time chat and support system, multi-user access, and hierarchical branch-level management.
- **AI Based Social & Order Manager**
Developed an AI-based Social & Order Manager handling Facebook messages/comments, WhatsApp, and YouTube with features like auto reply, bad comment detection & deletion, and automated order collection
- **POS-Inventory & E-commerce System**
Developed a POS, Inventory, and E-commerce System with product, stock, sales, and order management, supporting multiple stores, branch-level operations, multi-user access, and high-traffic handling. Etc.

Technical Leadership: Led architectural decisions for 2 major projects, establishing coding standards and development workflows

Solving Excellence: LeetCode Solved 100+ algorithmic problems, HackerRank 5-star rating in PHP and Problem Solving, 4-star in SQL

Education & Certifications

- **Bachelor Of Science (BSC)** 2025
University Of South Asia.
- **Diploma In Computer Science (CSE)** 2021
Kurigram Polytechnic Institute.

Languages

- **Bengali** – Native
- **English** – Professional
- **Hindi** - Conversational
